# SHRED. RECYCLED GOGGLE STRAPS

**RECYCLED  
PLASTIC BOTTLES  
CONTENT | 80%**

In 2021, SHRED. introduced goggle straps made with 80% of their weight from recycled PET plastic bottles—an industry first. Debuting at the Beijing 2022 Olympics, these straps reflect our commitment to reducing environmental impact while delivering top-tier performance. Today, they're standard across all SHRED. goggles, proving innovation and responsibility go hand in hand.

VLT: 21% - CAT: S 2 | FLAT LIGHT TO SUN  
WITH POLARIZING FILTER

**PURE WHITE**  
CBL 2.0 ICE

Are you searching for the best performing ski and snowboard goggle that defeats FLAT LIGHT while providing the widest field of vision in the game and a distinctive, sleek, and frameless cylindrical lens style? If so, SHRED. Gratify is your best choice. It offers superior fit and comfort and features our revolutionary CONTRAST BOOSTING LENS™ 2.0 (CBL 2.0)\* technology to DEFEAT FLAT LIGHT and greatly enhance vision performance in ALL weather and light conditions. Combined with NODISTORTION™ technology, it maintains perfect image clarity and eliminates optical distortion at all altitudes. The SHRED.wide™ design ensures a maximized field of view, allowing you to see more of the mountain and its terrain. Boost your confidence and performance for endless fun up and down the mountains. SHRED. Gratify is compatible with most prescription glasses (OTG).

\*Available in select models. Other models feature our original Contrast Boosting Lens™ (CBL), designed to enhance contrast and image definition compared with traditional lenses.

## FEATURES:

**SHRED. CONTRAST BOOSTING LENS™ 2.0** | Our proprietary, MIT-developed, ALL CONDITIONS Lens Tech System DEFEATS FLAT LIGHT, boosts contrast in low/flat light, and reduces glare in brightness. Choose from: ICE to DEFEAT FLAT LIGHT and enhance vision performance in ALL CONDITIONS, GLACIER to DEFEAT GLARE in Late Spring/Summer, NIGHTTIME to DEFEAT DARKNESS in Night/Artificial Light.

\*Select models only. Others feature original CBL™ for enhanced contrast and clarity.

**SHRED.wide™** | Goggles designed and engineered to maximize your field of view.

**SHRED. NODISTORTION™** | Pressure regulation valve technology to provide crystal clear vision during altitude change..

**SHRED. OTG** | Designed to provide compatibility and comfort with prescription glasses.

**SHRED. NOCLOG™** | Hydrophobic treatment on vents to reduce clogging from snow or water and help prevent fogging.

**VLT% IMPORTANT NOTICE** | VLT% doesn't fully capture the human eye's experience with SHRED. Contrast Boosting Lens™ 2.0 Technologies. Unlike the human eye, it misses how the lens's polarization filter cuts glare and how the contrast enhancing formulations boost clarity and vision.

## TECH SPECS:

**LENS** | Ultra-high-optical-precision molded, cylindrical double lenses with tapered thickness to optimize vision at all angles and enhance impact protection. | 100% UVA-UVB-UVC protection | Super Anti-Fog

**FRAME** | Width: 170 mm | Height: 100 mm

**STRAP** | Width: 50 mm | Approx. 80% R-PET fibers from recycled plastic bottles | Triple silicone line backing | 2-point slide adjustment system

**WEIGHT** | 140 g

**SUGGESTED FIT** | S to L helmet size

## IN THE BOX:

1 pair of SHRED. Gratify goggles | 1 SHRED. goggle soft case  
SHRED. goggles packaging is 100% plastic free

If you're looking for the ultimate ski and snowboard goggle to DEFEAT FLAT LIGHT, offering the widest field of vision in the game with a sleek, almost frameless cylindrical lens style, SHRED. Simplify is your top choice. It features our revolutionary CONTRAST BOOSTING LENS™ 2.0 (CBL 2.0)\* technology to DEFEAT FLAT LIGHT and greatly enhance vision performance in ALL weather and light conditions. Combined with NODISTORTION™ technology, it maintains perfect image clarity and eliminates optical distortion at all altitudes. The SHRED. wide™ design ensures a maximized field of view, allowing you to see more of the mountain and its terrain. The 1-2-3 SHRED REPLACEMENT SYSTEM™ allows easy lens swapping. SHRED. Simplify is also OTG compatible, fitting over most prescription glasses.

\*Available in select models. Other models feature our original Contrast Boosting Lens™ (CBL), designed to enhance contrast and image definition compared with traditional lenses.

## FEATURES:

**SHRED. CONTRAST BOOSTING LENS™ 2.0** | Our proprietary, MIT-developed, ALL CONDITIONS Lens Tech System DEFEATS FLAT LIGHT, boosts contrast in low/flat light, and reduces glare in brightness. Choose from: ICE to DEFEAT FLAT LIGHT and enhance vision performance in ALL CONDITIONS, GLACIER to DEFEAT GLARE in Late Spring/Summer, NIGHTTIME to DEFEAT DARKNESS in Night/Artificial Light.

# NOTION NOSHOCK

If you're a skier or snowboarder searching for a premium helmet that boosts your confidence by offering unrivaled technology to absorb both rotational and linear energy—while also striking the perfect balance between being lightweight and durable—look no further than the Notion NoShock. Equipped with SHRED's SMART IMPACT PROTECTION SYSTEM™, this new flagship helmet pairs SHRED's ROTATIONAL ENERGY SYSTEM™ (RES)—which is the lightest and thinnest solution for addressing rotational forces—with the helmet's integrated honeycomb-cone-structured SLYTECH® SHOCK ABSORPTION to create an unparalleled synergy for combating linear and multi-directional forces. Its hybrid construction combines the durability of a hard shell upper with the weight savings of an in-molded lower shell and sidewalls. A unique 3-position switch allows you to control the top, back, and side vents simultaneously. A passive RECCO reflector further enhances your safety while the helmet's Fidlock magnetic closure offers security and convenience. The Notion NoShock boosts your confidence, allowing you to charge harder and amplify your fun.

## FEATURES:

**SHRED. ROTATIONAL ENERGY SYSTEM™** | Patent-pending technology that manages the effects of rotational accelerations to the head on impact by allowing a relative movement between the helmet and the head through the use of ultra-thin, multi-directional absorption units made with an elastic layer.

**SLYTECH® SHOCK ABSORPTION** | SHRED.'s patented solution to increase linear impact energy dissipation. It integrates a slow memory honeycomb cone structure into the helmet's EPS impact absorption element.

**XT2®** | Anti-microbial technology to provide permanent odor protection.

**VENTILATION** | 3-position switch controls top, back and side vents simultaneously.

**RECCO®** | Integrated reflector with passive technology that enables rescue professionals to search for you in the event of an avalanche or if lost outdoors.

**FIDLOCK®** | Magnetic closure to enhance convenience, security, and efficiency.

**HEXAFLOW™** | Three-dimensional EPS with channels to enhance linear impact absorption and maximize ventilation.

# TOTALITY NOSHOCK

Are you searching for a lightweight yet extremely durable hard shell ski and snowboard helmet that offers a superior fit and comfort and features unrivaled technology to address both rotational and linear energy absorption? Then the Totality NoShock is the perfect choice. Its SMART IMPACT PROTECTION SYSTEM™ pairs SHRED's ROTATIONAL ENERGY SYSTEM™ (RES)—which is the lightest and thinnest solution for addressing rotational forces—with the helmet's integrated honeycomb-cone-structured SLYTECH® SHOCK ABSORPTION to create an unparalleled synergy for combating linear and multi-directional forces. The Totality NoShock gives you the confidence you need to reach the next level, feel like a pro, and have fun.

## FEATURES:

**SHRED. ROTATIONAL ENERGY SYSTEM™** | Patent-pending technology that manages the effects of rotational accelerations to the head on impact by allowing a relative movement between the helmet and the head through the use of ultra-thin, multi-directional absorption units made with an elastic layer.

**SLYTECH® SHOCK ABSORPTION** | SHRED's patented solution to increase linear impact energy dissipation. It integrates a slow memory honeycomb cone structure into the helmet's EPS impact absorption element.

**XT2®** | Anti-microbial technology to provide permanent odor protection.

**VENTILATION** | Strategic vent system to channel warm air from the goggles and the front of the helmet to its back, preventing goggles from fogging and the head from sweating.

**SL CHIN GUARD** | Fully compatible with SHRED. Soft-Ear Chin Guards. See page 49 for details.

## TECH SPECS:

**CONSTRUCTION** | Hard Shell | Integrated SLYTECH® NoShock honeycomb | 12 vents

**SAFETY STANDARDS** | EN1077B (Europe snow) | ASTM F2040 (USA snow)

**MATERIAL** | SHRED. Shield toughened ABS | Super Light EPS | SLYTECH® Shock Absorption

# BASHER ULTIMATE

Are you a ski racer searching for the best-performing FIS-certified helmet that not only has the lowest profile, fits great, and looks amazing, but is also lightweight and offers unrivaled technology to address both rotational and linear energy absorption? Then the SHRED. Basher Ultimate is the perfect choice. Its ROTATIONAL ENERGY SYSTEM™ (RES)—which is the lightest and thinnest solution for addressing rotational forces—is paired with Casidion™—a nanotechnology-based impact liner that's thinner and lighter than those used in other racing helmets—to create an unparalleled synergy for combating linear and multi-directional forces. Charge with confidence and boost your performance, style, and fun.

## FEATURES:

**SHRED. ROTATIONAL ENERGY SYSTEM™** | Patent-pending technology that manages the effects of rotational accelerations to the head on impact by allowing a relative movement between the helmet and the head through the use of ultra-thin, multi-directional absorption units made with an elastic layer.

**CASIDION™** | Revolutionary nanotech foam that goes beyond the performance of traditional materials. This absorption element offers protection even in the case of repeated impacts and provides an extraordinarily high impact absorption efficiency, allowing it to be thinner and lighter than other commonly used components.

**XT2®** | Anti-microbial technology to provide permanent odor protection.

FIS RH 2013 | Certified according to FIS RH 2013 ski racing helmet safety standards.

**CUSTOM FIT KIT** | An additional set of thicker pads and ear pieces to fine tune the helmet's fit.

**SL CHIN GUARD** | Fully compatible with SHRED. Hard-Ear Chin Guards. See page 49 for details.

## TECH SPECS:

**CONSTRUCTION** | Tapered Hard Shell with CASIDION™ Nanotech

**SAFETY STANDARDS** | FIS RH 2013 | EN1077A (Europe snow hard ears) | ASTM F2040 (USA snow)

**MATERIAL** | SHRED. Shield toughened ABS | CASIDION Nanotech

**FIS RH 2013 LABEL** | This helmet carries the official FIS RH 2013 compliance label

**WEIGHT** | 615 g [Size S/M]

# HELMETS TECHNOLOGY

## SMART IMPACT PROTECTION

Powered by SHRED.'s Rotational Energy System™ and SLYTECH® Shock Absorption.

To boost your confidence and fun, SHRED.'s Smart Impact Protection System™ effectively combats both rotational and linear forces. Simply put, this reduces harmful forces transmitted to your brain. SHRED.'s Rotational Energy System™ offers the lightest and thinnest solution for addressing rotational forces while SLYTECH® Shock Absorption maximizes the helmet's ability to dissipate linear impact energy. Unleash your potential with SHRED.'s Smart Impact Protection System.™

# SHRED. MINIMAL PACKAGING PROJECT

At SHRED., innovation drives everything we do—including how we package our products. In 2020, we led the industry by eliminating plastic from our goggle and helmet packaging, pioneering a more responsible approach. By 2023, we advanced further, joining the Responsible Packaging Movement and adopting FSC-certified paper—setting a new benchmark for innovation and sustainability in our category.

## PROTECTION TECHNOLOGY

## AIRFLEX™: BACK PROTECTION REDEFINED

### Engineered for the Future of Performance, Protection, and Comfort: Protection You'll Forget Until You Need It.

From the pioneers who brought soft protection to the slopes in 2006—revolutionizing a market dominated by rigid, hard plastic turtle-shell designs—SHRED. introduces AirFlex™ Technology, a groundbreaking advancement in back protection.

Powered by the redefined SLYTECH® 2ND SKIN™, the new AirFlex line sets a new standard for comfort, flexibility, ventilation, and protection:

- **35% Less Weight:** Every gram counts—effortless wear for maximum mobility.
- **Unmatched Flexibility:** The innovative 3D hexagonal grid adapts seamlessly to your every move.
- **Superior Ventilation:** Strategically placed perforations keep you cool and comfortable all day.
- **Enhanced Impact Absorption:** Evolved from our previous generation, it hardens more effectively upon impact, distributing energy across an even wider surface for superior protection.
- **Versatile Protection:** Available in Level 1 and Level 2 standards to meet the needs of all skiers and snowboarders.

## PROTECTION TECHNOLOGY

### Tailored Protection for Every Skier and Snowboarder

#### Explore the AirFlex Collection:

Airflex™ Shock  
Absorption Unit

- **2ND SKIN Lite Vest:** Full-coverage design offering all-day comfort and flexibility.
- **2ND SKIN Lite Naked:** Minimalist belt and shoulder strap option for lightweight freedom.
- **2ND SKIN Heavy Duty Naked:** Advanced impact protection designed for high-intensity performance.

Each model is powered by Slytech® 2ND SKIN™, featuring redefined shock absorption technology that delivers unparalleled protection. So light and comfortable, you'll forget you're wearing it—until you need it most.

# 2ND SKIN BACK PROTECTOR HEAVY DUTY

For those who demand the highest level of protection without compromising on comfort, the SHRED. 2ND SKIN Back Protector Heavy Duty is the ultimate choice. Engineered with our redefined Slytech® 2ND SKIN™ material, it provides advanced impact absorption while meeting the rigorous Level 2 safety standard. The innovative AirFlex™ 3D hexagonal structure ensures unmatched flexibility, ventilation, and a lightweight feel, allowing you to push your limits with confidence. Designed for skiers and snowboarders who won't settle for less, the SHRED. Back Protector Heavy Duty Naked keeps you protected, comfortable, and ready to conquer every run.

## FEATURES

**SLYTECH® 2ND SKIN™** | Engineered to feel like a natural extension of your body, it offers unmatched comfort and flexibility without compromising protection. Soft and pliable as you ride, it hardens instantly upon impact to shield you from even the harshest crashes. With SLYTECH® 2ND SKIN™, experience the pinnacle of innovation where protection and comfort become one.

**SLYTECH® AirFlex™** | Advanced 3D hexagonal structure that significantly enhances the performance, comfort, and protection of our proprietary SLYTECH® 2ND SKIN™ technology by reducing weight, increasing flexibility, and optimizing ventilation.

# CARBON SHIN GUARDS

If you're a ski racer looking for unrivaled performance when you clear slalom gates, SHRED. Carbon Shin Guards are the perfect choice. Their SLYTECH® SHIELD CARBON advanced composite material provides exceptional protection and features ADVANCED GATE GLIDE technology to minimize friction. And to stay in place, they sport SHRED. GRIP PADS. With their unparalleled shin protection and gate clearing speed, the SHRED. Carbon Shin Guards provide the confidence you need to focus on your skiing and feel like a pro.

## FEATURES:

**SLYTECH® SHIELD CARBON** | A high performance material blend that combines carbon fiber technology and our SLYTECH® SHIELD CARBON material to create shells that are extraordinarily durable yet lightweight and that provide the best performance at all temperatures.

**ADVANCED GATE GLIDE™** | NOFRICTION+ technology integrates a friction-reducing additive into the SLYTECH® SHIELD CARBON composite material. This acts as a lubricant, minimizing friction and drag between the guard and gates to boost speed.

# SKI RACE PROTECTIVE GLOVES

If you're a ski racer looking for a pair of gloves or mittens that protect the back of your hands and your thumbs while providing unparalleled abrasion resistance and durability, the SHRED. Ski Race Protective Gloves or the SHRED. Ski Race Protective Mittens are the perfect choice. Their SLYTECH® Foam offers unrivaled impact energy absorption around your knuckles and thumb while PRIMALOFT® insulation provides exceptional warmth. The gloves also feature SUPERFABRIC® armor plates on the back of the hand, overlay panels for compatibility with arm guards, a tacky grip layer on the palm, and a nose wipe for additional comfort. Ski with confidence and unleash your potential.

## FEATURES:

**SLYTECH® SHOCK ABSORPTION** | Built for those who value dependable protection and everyday comfort. It adapts intelligently to your movements—soft and flexible during use, yet hardening to absorb impact when you need it most. Lightweight and reliable, SLYTECH® SHOCK ABSORPTION lets you ride with confidence.

**PRIMALOFT® insulation** | Ultra-fine microfiber insulation that is warm, soft, and lightweight.

**THUMB PROTECTION** | Strategically placed SLYTECH® Shock Absorption pads to protect against skier's thumb

**SUPERFABRIC®** | SuperFabric armor plates for unrivaled durability and abrasion resistance.

**TACKY GRIP™** | Specially formulated leather to provide unparalleled grip on poles.
